

KEY INVESTOR INFORMATION

Class A USD Accumulating Shares, Granahan US SMID Select Fund, (the "Fund")
a sub-fund of Granahan Funds Plc (the "Company"), ISIN: IE00BL0L4W91

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and Investment Policy

The investment objective of the Fund is to seek capital appreciation through investment in small and mid-capitalisation, dynamic and emerging growth companies.

The Fund invests primarily in equity securities of small and mid-capitalisation ("SMID Cap") companies located in or whose businesses are closely associated with the United States. All securities issued by SMID Cap companies in which the Fund will invest will be listed or traded on a Regulated Market and meet the conditions of a transferable security as defined in the UCITS Regulations. Granahan Investment Management Inc (the "Manager") currently considers SMID Cap companies to be those companies with market capitalisations, at the time of purchase, within the range of the Index (the "SMID Cap Range"). This range varies with market conditions and index balancing, but is currently between US\$3 million and US\$13.8 billion. The Fund is not constrained by the Index and may invest up to one quarter of its assets in companies whose market capitalisation, at the time of purchase, falls outside the SMID Cap Range.

The Fund is typically invested across the sectors reflected in the Index. Because the Investment Manager's stock selections are determined by an analysis of each individual stock, the characteristics of the Fund may differ from the overall SMID Cap Range. The Fund will typically comprise a portfolio of 40-60 stocks. The Investment Manager seeks to diversify the Fund's investment holdings to minimise risk and manage position size.

The Fund uses the Comparator benchmark for performance

comparison purposes only. The Fund is actively managed and is not constrained by any benchmark.

For full investment objective and policy details, please refer to the "Investment Objective" and "Investment Policies" sections of the Fund's supplement.

Investors can redeem shares each day (except Saturdays and Sundays and normal bank holidays) on which banks in Dublin and New York are open for regular business.

Recommendation: This Fund is appropriate as a long term investment option.

Equities: securities representing an equity instrument in a company including shares and stocks, American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs"). ADR/GDRs enable investors to buy securities of foreign companies without the associated risks of cross-border purchases of shares. ADRs and GDRs usually pay dividends and are treated in a similar way to ordinary shares.

Index: the Russell 2500™ Growth Index, an index that measures the performance of the small and mid-capitalisation segment of the U.S. equity universe which currently has a weighted average market capitalization of US\$5.3 billion and which has the Bloomberg ticker RU25GRTR.

Comparator Benchmark: the Index which is used as a comparator for the performance of the Fund but which is not used to constrain portfolio composition.

Risk and Reward Profile

The Fund is in category 6 as it mostly invests in shares and similar instruments of companies with smaller market capital values which typically experience higher levels of price fluctuations than such securities of companies with larger market capital values.

The risk indicator was calculated using simulated data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time.

In pursuing its investment objective the Fund will be exposed to additional risks including without limitation:

Liquidity Risk: the Fund may not always find another party willing to purchase an asset that the Fund wants to sell which could impact the Fund's ability to meet redemption requests on demand.

Custodial Risk: insolvency, breaches of duty of care or misconduct of a custodian or sub-custodian responsible for the safe keeping of the Fund's assets can result in loss to the Fund.

Small Cap Risk: investing in the securities of smaller, lesser-known companies may involve greater risk due to the less certain growth prospects, the lower degree of liquidity (see liquidity risk) of such shares and the greater sensitivity of small companies to changing economic conditions.

Equity Investments Risk: equity investments are subject to greater fluctuations in market value than other asset classes as a

result of such factors as a company's business performance, investor perceptions, stock market trends and general economic conditions. The Fund's Net Asset Value may be impacted accordingly.

Counterparty Risk: a party with whom the Fund contracts for securities may fail to meet its obligations or become bankrupt which may expose the Fund to a financial loss.

Concentration Risk: the Fund's investments may be concentrated in a small number of companies and sectors which may lead to greater price fluctuations than if the Fund was invested in a broader number of companies and range of sectors.

Foreign Currency Risk: changes in exchange rates may reduce or increase the value of non-U.S. Dollar denominated assets held by the Fund. The Manager will not hedge against these risks.

Class Currency Risks (Representative Classes): (Hedged Classes) there can be no guarantee that currency hedging will be successful in mitigating the effects of currency fluctuations on non-USD classes. (Unhedged Classes) performance of unhedged classes may be affected by changes in the exchange rates between the class currency and the US Dollar.

Operational Risk: material losses to the Fund may arise as a result of human error, system and/or process failures, inadequate procedures or controls.

Please refer to the section entitled "Investment Risks and Special Considerations" in the Company's Prospectus for additional information on these and other risks associated with investment in the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out	
Charges taken from the Fund over a year
