

Investment Summary

The Fund primarily invests in equities of small and mid Cap (“SMID Cap”) companies located in or having substantial business ties to the United States. Typically the Fund’s assets will be invested in securities of approximately 50 companies across the sectors reflected in the Index. GIM’s SMID Select strategy is grounded in the belief that a disciplined, fundamental, bottom-up research process can identify underappreciated growth potential in companies that may or may not have a history of strong growth. The resulting portfolio has the optimum combination of stocks with underlying thematic growth drivers, and stocks of well-positioned companies that are poised for positive earnings revisions or are benefiting from fundamental momentum.

Fund Highlights

- Enterprise growth drives a company’s stock price over the long term, while changes in market sentiment can provide opportunity in the short term.
- We believe certain thematic growth drivers can provide sustainable compound return potential.
- We believe one can locate growth not only in traditional sectors, but also in unexpected corners of the market where other growth managers rarely venture.
- Only a select number of companies fit our criteria. We believe in having conviction in our analysis and patience in our conviction.

Portfolio Manager

David Rose, CFA

23 Yrs. Experience David Rose is Chief Investment Officer, Senior Vice President and a Managing Director of the firm. Mr. Rose is the portfolio manager for GIM’s Small Cap Select, SMID-Select and MidCap Select strategies, as well as overseeing a portion of the multi-managed Small Cap and SMID-Cap portfolios. Mr. Rose joined GIM in 2015 and has over 20 years industry experience, including as a portfolio manager for several highly ranked equity funds. Prior to joining GIM, Mr. Rose was a partner with Furey Research Partners in Boston, where he conducted small cap equity research for use by the firm’s investment manager clients. Prior to his work at Furey Research, Mr. Rose spent much of his career as a portfolio manager with American Century Investments in Kansas City, MO, before moving to Pyramid Global Advisors in Smithfield, RI to manage a new mid-cap fund. David received his MS in Finance from the University of Wisconsin at Madison, and his BS in Business Administration from Washington University in St. Louis, MO.

Monthly Commentary

US small/SMID cap indices resumed their upward trend in August. The Russell 2500 Growth Index returned +2.5% for the month. The Granahan US SMID Select Fund underperformed with a return of +1.7% (USD). The underperformance to the benchmark was due to both stock selection and sector allocation. Selection in consumer discretionary accounted for most of the underperformance, though selection in financials was also a negative. The Fund's outsized overweighting to the communication services sector also hurt performance in the period. On the positive side, the Fund showed robust selection in healthcare, industrials, consumer staples, and info tech. The Fund's overweight position in info tech also helped relative performance. With respect to LifeCycles, the Special Situation holdings significantly outperformed the overall Index return, while the Core Growth and Pioneer categories lagged the benchmark. Corporate earnings and revenue growth continue to be solid even as there are signs of stress on supply chains in some areas. As a bottom-up investor, GIM continues to focus on companies that we believe are positioned to do well in the next 18-24 months. We build significant positions in a Select number of these well-positioned companies when risk/reward is attractive.

Composite Footnotes

Granahan Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Granahan Investment Management has been independently verified for the periods January 1, 1993 through December 31, 2019. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. GIM is an independent, SEC-registered investment firm that oversees small and mid-cap equity portfolios for large institutions and wealthy individuals. The Small/Mid Cap Select product utilizes fundamental, bottom-up research and analysis to invest in the stocks of companies in the small to mid-cap sector of the market that have the ability to sustain growth through market disruption. The Small/Mid Cap Select is a concentrated SMID-cap portfolio typically containing 45-50 holdings. The benchmark for the Small/Mid Cap Select product is the Russell 2500 Growth. The composite, created in September 2016, is calculated by asset-weighting the performance of each account on a monthly basis. The composite includes an autonomous sub-portfolio, which includes cash, as part of a sleeve-managed SMID strategy. Accounts are included beginning with the first full month under management and terminated accounts are included in the composite. Performance calculations, expressed in U.S. dollars, produce a total return including cash and the reinvestment of dividends and interest. Effective January 1, 2021, the composite is subject to a significant cash flow removal policy for accounts with external flows greater than or equal to 75% of market value. The dispersion is a standard deviation using equal-weighted total returns for accounts in the composite the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. Leverage is not utilized. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Returns are gross of investment management fees, which when included, reduce investment returns. The standard management fee applicable is applied to all accounts to calculate the net return. The standard fee for accounts managed in the Small/Mid Cap Select style is payable quarterly in arrears and is calculated by applying the ANNUAL rate of 1.00% times the average value of the assets in the account on the last day of each month in the quarter. Fees are collected quarterly, which produces a compounding effect on the total rate of return net of management fees. Market value is based on trade date and security pricing is supplied by Telemet. A complete list and description of all of the firm's composites is available upon request. Past performance is no guarantee of future results.
