

Investment Summary

The Fund primarily invests in equities of small and mid Cap (“SMID Cap”) companies located in or having substantial business ties to the United States. Typically the Fund’s assets will be invested in securities of approximately 50 companies across the sectors reflected in the Index. GIM’s SMID Select strategy is grounded in the belief that a disciplined, fundamental, bottom-up research process can identify underappreciated growth potential in companies that may or may not have a history of strong growth. The resulting portfolio has the optimum combination of stocks with underlying thematic growth drivers, and stocks of well-positioned companies that are poised for positive earnings revisions or are benefiting from fundamental momentum.

Fund Highlights

- We believe enterprise growth drives a company’s stock price over the long term, while changes in market sentiment can provide opportunity in the short term.
- We believe certain thematic growth drivers can provide sustainable compound return potential.
- We believe one can locate growth not only in traditional sectors, but also in unexpected corners of the market where other growth managers rarely venture.
- Only a select number of companies fit our criteria. We believe in having conviction in our analysis and patience in our conviction.

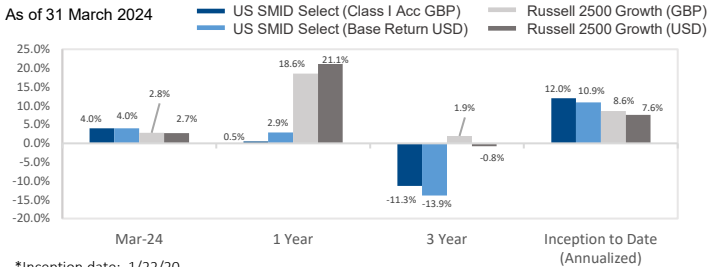

Portfolio Manager
David Rose, CFA

25 Yrs. Experience David Rose is Chief Investment Officer, Senior Vice President and a Managing Director of the firm. Mr. Rose is the portfolio manager for GIM’s Small Cap Select, SMID-Select and MidCap Select strategies, as well as overseeing a portion of the multi-managed Small Cap and SMID-Cap portfolios. Mr. Rose joined GIM in 2015 and has over 20 years industry experience, including as a portfolio manager for several highly ranked equity funds. Prior to joining GIM, Mr. Rose was a partner with Furey Research Partners in Boston, where he conducted small cap equity research for use by the firm’s investment manager clients. Prior to his work at Furey Research, Mr. Rose spent much of his career as a portfolio manager with American Century Investments in Kansas City, MO, before moving to Pyramid Global Advisors in Smithfield, RI to manage a new mid-cap fund. David received his MS in Finance from the University of Wisconsin at Madison, and his BS in Business Administration from Washington University in St. Louis, MO.

About Granahan Investment Management

Founded in 1985, Granahan Investment Management, LLC is an employee-owned investment boutique specializing in smaller cap equity investments for large institutions and wealthy individuals. The firm utilizes fundamental, bottom-up research to uncover and invest in fast growing companies.

Monthly Commentary

Geopolitical risks and recent economic data highlighting that the U.S. economy remains resilient have created volatility within the financial markets especially as investors debate the Federal Reserve's position on inflation, and when and whether they will cut rates. The Granahan US SMID Select UCITS Fund outperformed the benchmark this month at +4.0% (USD) versus the Russell 2500 Growth Index return of +2.7% (USD). Strength in the portfolio came from Information Technology where our overweight and strong stock selection proved to be a winning combination. Underweight Industrials, Consumer Discretionary and Health Care also contributed positively from stock selection. The combined overweight and positive stock selection in Materials also helped with outperformance. Negative to performance were the overweight in Communication Services and Consumer Staples and underweight in Energy. All three sectors had negative stock selection. Our underweight in Financials was a positive but the stock selection was poor. Pioneers lead the portfolio this month with Special Situations following. Core Growth lagged. Valuations are lower on stronger earnings, the lowest they have been in many years. While small caps saw a meaningful recovery off the October lows, we expect continued volatility until there is more clarity from the Federal Reserve.

The Russell 2500™ Growth Index measures the performance of the small to mid-cap growth segment of the US equity universe. It includes those Russell 2500 companies with relatively higher price-to-book ratios, higher I/B/E/S forecast medium term (2 year) growth and higher sales per share historical growth (5 years). The Russell 2500 Growth Index is constructed to provide a comprehensive and unbiased barometer of the small to midcap growth market. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small to mid-cap opportunity set and that the represented companies continue to reflect growth characteristics.

NA – Dispersion information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year; Standard deviation information has fewer than three years' data. *Partial year performance: March 31, 2015 through December 31, 2015.

Composite Footnotes

Granahan Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Granahan Investment Management has been independently verified for the periods January 1, 1993 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Small/Mid Cap Select Composite has had a performance examination for the periods March 31, 2015 through December 31, 2021. The verification and performance examination reports are available upon request. GIM is an independent, SEC-registered investment firm that oversees small and mid-cap equity portfolios for large institutions and wealthy individuals. The Small/Mid Cap Select product utilizes fundamental, bottom-up research and analysis to invest in the stocks of companies in the small to mid-cap sector of the market that have the ability to sustain growth through market disruption. The Small/Mid Cap Select is a concentrated SMID-cap portfolio typically containing 45-50 holdings. The benchmark for the Small/Mid Cap Select product is the Russell 2500 Growth. The composite was created in September 2016 and the inception date is March 31, 2015 and is calculated by asset-weighting the performance of each account on a monthly basis. The composite includes an autonomous sub-portfolio, which includes cash, as part of a sleeve-managed SMID strategy. Accounts are included beginning with the first full month under management and terminated accounts are included in the composite. Performance calculations, expressed in U.S. dollars, produce a total return including cash and the reinvestment of dividends and interest. Effective January 1, 2021, the composite is subject to a significant cash flow removal policy for accounts with external flows greater than or equal to 75% of market value. The dispersion is a standard deviation using equal-weighted gross of fees total returns for accounts in the composite the entire year. The three-year annualized standard deviation measures the variability of the composite gross of fees returns and the benchmark returns over the preceding 36-month period. Leverage is not utilized. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Returns are gross of investment management fees, which when included, reduce investment returns. The standard management fee applicable is applied to all accounts to calculate the net return. The standard fee for accounts managed in the Small/Mid Cap Select style is payable quarterly in arrears and is calculated by applying the ANNUAL rate of 1.00% times the average value of the assets in the account on the last day of each month in the quarter. Fees are collected quarterly, which produces a compounding effect on the total rate of return net of management fees. Market value is based on trade date and security pricing is supplied by Telemet. A complete list and description of all of the firm's composites is available upon request. Past performance is no guarantee of future results. GIPS® is a registered trademark of CFA Institute.
